

POWER TRANSMISSION PRODUCTS

Veyance's Power Transmission Products range offers you the best-in-class solutions that have set the standards for improved drive efficiency all over the world. Veyance has six world class global facilities for Power Transmission Products.

Our product range includes all cross sections and varieties of Classical, Cogged, Multi Rib and Synchronous belts.

Some of our unique Power Transmission Products are:

Eagle Pd premium synchronous belts with a patented H.O.T. (Helical Offset Tooth) design for reduced noise, reduced vibration and increased efficiency.

Falcon Pd synchronous belts are a drop-in replacement for any application where a chain drive is used.
